Water conditions:

6' at 11.5m.

Water temperature of lake had dropped due to low overnight temperature.

Weather:

Very bright sun with little or no ripple on water.

Baits used:

Expanders pumped in a self prepared Pineapple flavoured pellet soak.

Feed pellets and casters dampened with Pineapple flavoured pellet soak.

Feeding:

Groundbait and micro pellet fed at 11.5m and loose fed caster and maggot at 3m.

Comments:

Draw was not best and so decided to fish for silvers.

I fed a skimmer line at 11.5m and loose fed at 3m for Roach/Rudd.

Probably caught more fish than anyone in match but did not have any thing over 4ozs.

**Top weight in silvers was 18lb and second was 15lbs. Both had several fish over 1lb.**
