

My name is Wayne Evident – I'm a 44 year old match angler and family man from Cornwall.

I started fishing my local water at the age of 8, and now fish drains, rivers and carp pools all over the UK, from Lincs to Cornwall. My favourite venues are Mawgan Porth and Stafford Moor.

I enjoy fishing club and open matches, often framing or recording section wins. My preferred methods are the short pole and method feeder, used with pellets and dead maggots. I used both methods to record my current PB match weight of 169lb 3oz.
